Standalone System

Industrial Design

Auto Format Recognition

Single-session hard drive

Supports CD-R/RW

High Speed up to 52x

DVD Upgradable

Compact Design

220 Disc Hopper

Small Footprint

Affordable

Miniature CD-R Factory

Using the *TCA-9100*™ is extremely simple to operate. Hate reading manuals? Than the *TCA-9100*™ is what you've been looking for. The intelligent menu display will walk you through every step! It automatically detects the CD master type (such as CD-ROM, CD-XA, CD-Audio etc) without any user knowledge of the standards (such as Red Book, Yellow Book etc). In addition, the compare mode allow the CDs and images to be verified for complete data integrity assurance. It will also automatically sort good CDs from bad CDs, saving you both time and money.

Small yet Powerful

Big things DO come in small packages! The *TCA-9100*™ comes standard with an ultra fast 52x writer, 110 bin hopper, complete automation and much more! What's more is that you do not need a PC to operate it! Simply plug it in and you're ready to burn! Full Cd's can be burned in just under 4 minutes, and smaller masters even faster. Upgrading to DVD-R will allow you the flexibility of burning in both formats, and the performance of a much more expensive machine.

Affordable. Reliable. Robust. All of these describe the *TCA-9100*™. Smooth robotics, fast recording speeds, and state-of-the-art technology make this the perfect duplication solution.
