

Simple Automation

TCA-9200™

Automated CD-R Duplicator

Peace of Mind

The *TCA-9200*™ will not only deliver CD-Rs at lightning fast speeds, but also the peace of mind that your job will be done correctly in your absence. With reliable robotics, intelligent technology, and a simple menu screen, the *TCA-9200*™ will allow you to focus on more important items. It automatically detects the CD master type (such as CD-ROM, CD-XA, CD-Audio etc) without any user knowledge of the standards (such as Red Book, Yellow Book etc). In addition, the compare mode allows the CDs and images to be verified for complete data integrity assurance.

Professional Duplication

Don't let the size of the *TCA-9200*™ fool you! This is a powerful and professional, CD-R/RW standalone, automated duplicator copying discs at lightning fast speeds of up to 52x. With reliable robotics and ultra-fast write speeds, you can expect 2 full CD-Rs with 650MB of information written in under 4 minutes, and smaller masters even faster! Simply load the master and the blanks and the machine will do the rest!

The compact design, smooth robotics, fast recording speeds, and affordable price makes the *TCA-9200*™ the perfect business solution for all of your duplication needs.

Small and Fast!
