Simple Publishing!

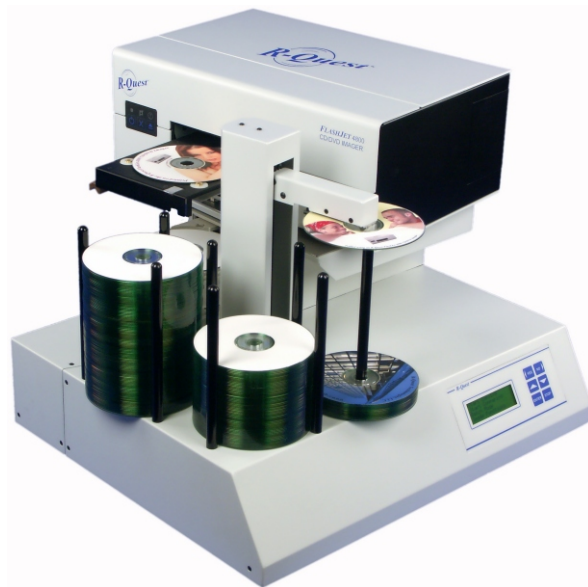

(Def); Flexible: characterized by a ready capability to adapt to new, different, or changing requirements. The *TCP-7100™* fits the definition to the letter. Network or standalone. Duplication only, print only, or maybe a combination of both. Verify or not to verify. Create the images on the included labeling software or maybe your own. Use on a MAC, PC or Linux. You see, everything is available on the *TCP-7100™*. From the writer to the printer, the internal hard drive to the network software and everything in between, the *TCP-7100™* delivers the perfect DVD and CD publishing solution to any office or home environment.

Many Choices!

The industrial design of the *TCP-7100™* will give you reliable service without the need for costly repairs. Reliable robotics combined with *R-Quest's* proprietary board technology, your publishing system will produce only the finest quality copies without the need for constant human intervention!

Printing has never been easier! Using your choice of several different printers, you can create beautiful graphics or rich text, giving you the professional look you desire. Simply create your print image using your favorite graphics program (or use the labeling program that is included) and your ready to print! It will merge your print file with your master disc and complete both the printing and duplication without switching machines! Ultimate convenience!

Printing. Duplicating. Standalone or network. Get the best of all worlds with the *TCP-7100™*!
