Four High-Speed Burners!

Would you like to copy and print your DVD's in one easy step? Then here is your publishing solution! The **TCP-7400™** will work as a standalone device that is ready for any user, or it can be networked to your MAC or PC for those who wish to send images via your network! The **TCP-7400™** comes standard with four - 16x DVD writers, a large 220 disc hopper, an internal hard drive and **TrueNet 2™** networking software for your network needs. Also, the **TCP-7400™** is compatible with several different DVD printers so you can choose the configuration that suits your needs! Flexibility at it's finest!

Beautiful Print Images!

The industrial design of the **TCP-7400™** will give you reliable service without the need for costly repairs. Reliable robotics combined with **R-Quest's™** proprietary board technology, your publishing system will produce only the finest quality copies without the need for constant human intervention!

Printing has never been easier! With the flexibility of the **R-Quest™** controller, you simply create your print image on the program of your choice, load it on the **TCP-7400™** and let the machine do the rest! It will merge your print file with your master disc and complete both tasks without switching machines! Ultimate convenience!

Printing. Duplicating. DVD or CD. Standalone or network. Get the best of all worlds with the new **TCP-7400™**!

EXCEEDING EXPECTATIONS...IS R-QUEST.™
