Standalone AND Networkable!

Would you like to copy and print your discs in one easy step? Then here is your publishing solution! The new **TCP-7500**™ will work as a standalone device that is ready for <u>any</u> user, or it can be networked to your PC or MAC for those who wish to send images via your network! The **TCP-7500**™ comes as standard equipment with five - high speed CD-R writers, a gigantic 220 disc hopper, a large internal hard drive and **TrueNet 2**™ Networking software for your networking needs. The **TCP-7500**™ is also compatible with several different CD-R printers so you can choose the configuration that suits your needs! Flexibility at it's finest!

Simply Professional!

The industrial design of the **TCP-7500**™ will give you reliable service without the need for costly repairs. Reliable robotics combined with **R-Quest's**™ proprietary board technology, your publishing system will produce only the finest quality copies without the need for constant human intervention!

Printing has never been easier! With the flexibility of the **R-Quest**™ controller, you simply create your print image on the program of your choice, load it on the **TCP-7500**™ and let the machine do the rest! It will merge your print file with your master disc and complete both tasks without switching machines! Ultimate convenience!

Printing. Duplicating. Standalone or network. Get the best of all worlds with the new **TCP-7500**™!
