Simple and Powerful

The **TC-8908**™ is very powerful yet extremely simple to operate. It automatically detects the CD master type (such as CD-ROM, CD-XA, CD-Audio etc) without any user knowledge of the standards (such as Red Book, Yellow Book etc). It not only copies "Frame Accurate" Data and Audio but also the hidden 'extras' that other copiers miss, such as CD Text, UPC, ISRC and the audio index. In addition, the compare master and compare copy modes allow both CDs and images to be verified for complete data integrity assurance.

Master Your World

Mastering the **TC-8908**™ will take only minutes. This professional CD-R/RW standalone duplicator will walk you through the entire process, allowing you to focus on more important items. If time is an issue, eight full 650MB discs can be written in less than 4 minutes, with smaller masters being even faster. Now THAT's efficient!

In addition to making exact frame accurate copies, audio tracks can be combined from several different master CDs to create custom audio compilations, making the **TC-8908**™ the copier of choice for the true professional.
