LEASING – A Smart Alternative to Cash

Purchasing equipment for your company can tie up monthly cash flow and quickly drain capital from your business. As an alternative, 85% of businesses choose to finance equipment and software through leasing. A recent survey showed 50% of small to medium-size enterprises were more likely to use leasing over any other purchase method.

Here are a few of the reasons why:

LEASED EQUIPMENT PAYS FOR ITSELF: A lease enables you to pay for equipment with the profits or savings it generates. Remember, it's the use of the equipment - not the ownership - that generates profits!

LEASING IMPROVES YOUR COMPANY'S CASH FLOW: You can acquire equipment **immediately** and still preserve your working capital. Most leases offer 100% financing without a large down payment. You can use your cash to finance your firm's internal growth.

FLEXIBILITY / CONVIENENCE: You choose the length of the **term** based upon your firm's cash needs, long and short term goals. A longer term means lower payments. Unlike most bank loans, leases can be structured with a minimal amount up front and can include soft costs. Our one-page application and simplified documentation minimizes your time spent applying.

LEASING SIMPLIFIES BUDGETING: With a known, fixed payment for the term of a lease, budget figures are easy to project. Leasing also eases budget and administrative constraints and avoids loan covenant restrictions.

TAX TREATMENT: Payments relating to operating leases go directly to the bottom line and therefore reduce your tax burden. Or you can maximize your tax deductions under IRS Tax Code Sect 179 with a capital lease. Speak to your accountant about tax benefits of these types of financing.

TEAM Equipment Leasing specializes in structured lease/financing solutions. Please feel free to contact us with any questions. We are confident that TEAM Equipment Leasing can help you meet your business goals.
