

Print Quantities of CDs or DVDs Faster Than Ever Before!

EASY TO OPERATE, PROVEN RELIABILITY

Composer XL Printer Autoloader's efficient and user-friendly design streamlines all operations. Since most printing jobs are unattended, reliability has carefully been designed into Composer XL Printer Autoloader. Its "pick-and-place" mechanism greatly improves upon the reliability of other designs, assuring you nonstop, high-volume production. During factory life testing, Composer XL has picked over 500,000 discs without a single mis-pick — over 14 years of typical operation! In addition, the Composer XL Printer Autoloader has a high-impact plastic front and all-metal case. Its rugged construction and styling make it equally at home in office or production environments.

THREE PRINTING OPTIONS

The Composer XL Printer Autoloader comes ready for the integration of a Primera Technology CD printer. You can print text, graphics, logos and even full-color photos directly onto the top surface of discs.

Both inkjet and thermal printers are available, so you can choose which one works best for you. Select the Signature IV[®] CD Color Printer for 1200 x 1200 dpi, full-color printing quality onto printable-surface discs. Choose SignaturePro[®] for fast & incredible 2400 dpi color printing. Or, choose the Inscripta[™] Thermal CD Printer for durable, scratch- and smudge-resistant, completely waterproof printing onto standard discs.

CD, DVD AND AUTOLOADER MODELS AVAILABLE

For CD-Rs, the Composer XL has a state-of-the-art 52x drive. Full 700MB discs are produced in less than three minutes each! If you'd also like to duplicate DVD-Rs, no problem! The combination DVD-R/CD-RW Composer XL, utilizing Pioneer's latest optical disc recording technology, is particularly versatile. Each drive is dual-purpose, able to record both DVD-R's as well as CD-R/CD-RW's.

Both models come equipped with Sonic[™] PrimoDVD[™] Software enhanced with new user interface, serialization of discs and more!

If you only need a manual loader, the Composer XL Autoloader automatically loads and unloads discs from any Primera Signature or Inscripta printer.

UNCOMPROMISED VALUE

Primera Technology's high-volume approach to design and manufacturing assures you of the highest quality at the lowest possible cost. Compared to other similar duplication systems, Composer is simply the best value available today! It's a versatile, high-performance CD-R and DVD-R duplicator that's fast and easy to use — and has a new low price that fits any budget!
